Environmentally friendly

Available in 200mm

## PEDESTRIAN LANTERNS

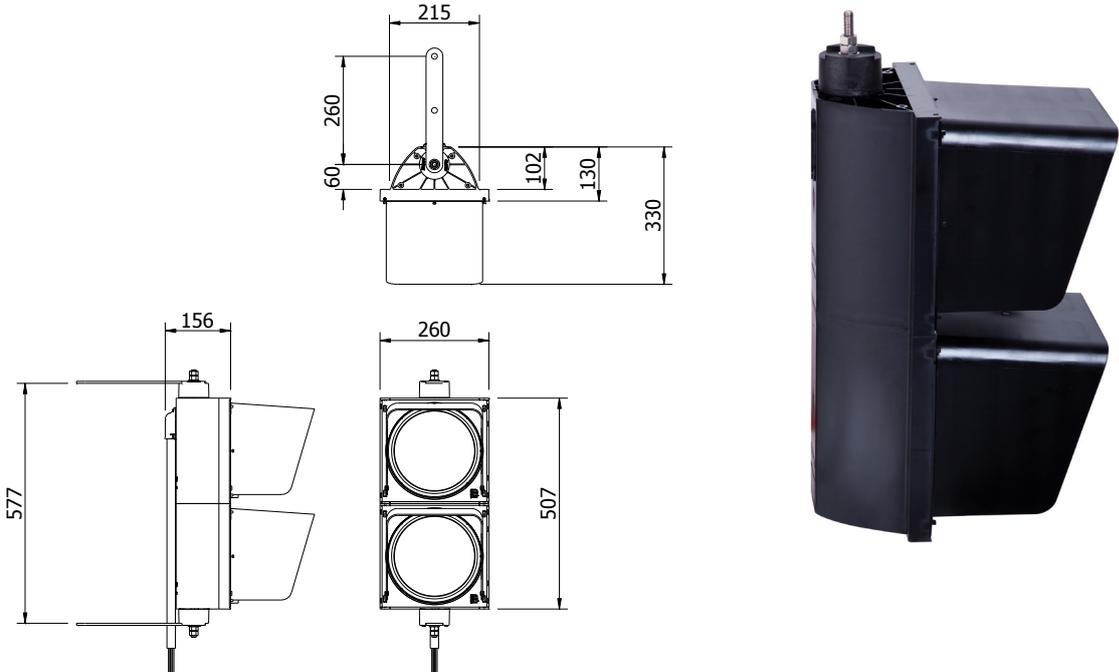

### Key Features

- BRAUMS Lanterns utilise the FuturLEDR3 Optical System from SWARCO FUTURIT
- Proven technology with >3,500,000 units installed
- AS2144 compliant
- All products traceable by serial number
- Central light source with very uniform signal display without visible LED dots
- Advanced thermal design ensuring optimum heat dissipation and minimum degradation
- BRAUMS Slimline housings are made from mouldings and not fabricated, ensuring a consistently manufactured product of the highest quality
- Housings are available in either Injection Moulded UV Stabilised Polycarbonate or Pressure Diecast Aluminium
- Housings are rated to IP35 (Optical system is IP65)
- Housing is lightweight making installation safer and easier
- Housings are single aspect allowing modular assembly and flexible configuration
- Dual hinged doors for left or right opening; easy single-handed operation
- Discreet locking device included for hinges if required
- Accommodates all AS/NZS 2144 compliant signalling hardware accessories
